declare to have been involved in a soft-skills' empowerment program, jointly provided by the following organizations:

in the frame of the Vet3d Erasmus project.

The project, through the VET3D skills intelligence database, provides a wide set of educational resources, tools and programs based on the VET3D model: enhanced integration between work-based, formal and non-formal education methods.

Specifically, the program addresses Vet students' and graduates' training needs through the development and implementation of short courses, training modules, workshops, internships and other sorts of educational opportunities.

The set of training resources and programs, accessible from the Vet3D skills' intelligence database, are conceived as valuable tools to improve Vet students' and graduates' soft employability/essential skills, with special regard to entrepreneurial, intercultural and digital skills, necessary to enhance entry into the employment, self-employment and/or entrepreneurship markets.

Specifically, I declare that I joined the following skills' empowerment programme:
